INSURANCE OFFICES

WISCONSIN
Home Insurance Office,
No. 6 Kneeland's Block.
MILWAUKEE, WISCONSIN MARCH 30, 1855
INSURANCE EFFECTED UPON DWELLING HOUSES, Stores and other Buildings, Household Furniture, Merchandise and other property against
LOSS OR DAMAGE BY FIRE.

This is a new Company organized the 26th of January last, on the Mutual plan, with the privilege by the charter of doing business on the Cash plan or of [illegible] Fire or Marine risks, but for the present the business has been confined to the Mutual system of insurance, and the very favorable and flattering manner in which the same has been received by the insuring public has induced the Directors to make it a purely Mutual Company. Besides this, it is believed that the recent failures of many of the Eastern Companies has been owing mainly to the combination of the Cash and Mutual System in one Company.
This Company commenced business with a capital of $50,000 and have already issued upwards of 5[illegible] policies, and it is believed that with proper caution as to the selection of risks, and rigid economy in expenses, we shall soon be enabled to make this Company such a one as will generally be preferred.
The recent failures of several of the old *Stock Companies, among the most prominent of which are the* Protection and Columbus, although it is believed that their business was conducted in the most proper manner, has had a tendency to shake the confidence of many of the most reliable and prominent insurance men in the Stock plan of insurance, and have induced them to believe that the only safe and reliable Companies are those conducted on the Mutual principle.
As it is the design of the Directors to do a profitable, rather than a large and therefore doubtful business, the company will take none except first class risks and at such rates as are deemed fully adequate to the risk. Agents are also instructed not to take to exceed $1000 upon any one risk in Village, within a circle of 4 rods diameter which of course will present very great loss at one fire.
Applications for Insurance, respectfully solicited.
Agents wanted for the above Company.

Highly Important to Farmers.
The only Exclusive Farmers' Insurance Company in the West.
THE MADISON MUTUAL,
Located at Madison, Wisconsin.

THIS COMPANY CONTINUES TO TAKE RISKS upon Farm Property only, consisting of buildings of all kinds, (belonging to farmers,) household furniture, grain in barns, live stock, &c., from one to five years, at lower rates than most other responsible Companies.
All losses promptly paid at the office as soon as proof is made thereon.
We believe it to be for the interest of the farmers to insure by themselves, their property being less hazardous than any other, consequently you will have no losses, only your own of the same class, and all will be on an equal footing.
Experience has shown that two thirds if not three fourths of all the fires that occur are upon stores, taverns, mills, shops, and such like property. In this Company all such property is rejected POSITIVELY BY LAW, THE ALONE.
Farmers, look to your own interest, and insure in a Farmers' Company.
We have been doing business a little over three years and we have not been obliged to assess our premium notes, and for the last *fourteen months we have not had a single dollar loss*, though doing a large and prosperous business, which we believe to be without a parallel in the history of insurance.
The best of references given as to the responsibility of the Company.

MILWAUKEE MUTUAL
FIRE INSURANCE COMPANY.
Office in Martin's Block, Milwaukee.
Capital over $165,000—in Cash and Premium Notes

THIS Company offers unrivalled facilities for the insurance of Buildings and Personal Property against fire. The advantages offered, are security beyond the reach of circumstances, as the real estate insured is by law bound for the assessment made to cover losses beyond the power of [illegible] sion. Every person insured is a member of the Company, and entitled to one vote. The cost of insurance does not exceed one-third as much as in Stock Companies, saying nothing of the increased security and the incomparable ease with which losses are settled. During the last five years, this Company have issued 2600 Policies, and made but three assessments at a cost to the property insured not exceeding two mills on the dollar. Its business is principally confined to this State.

PIANO FORTES
—AT—
GREAT BARGAINS!
No. 11, Spring Street.

I INFORM THE PUBLIC OF MILWAUKEE AND vicinity that I will sell for one month, all the Pianos on hand at
Boston Wholesale Prices!
Those who want to secure a GOOD TONED, CHEAP and WARRANTED PIANO FORTE, will find it to their interest to call early. I will sell elegant 6¾ octave, Rosewood, round cornered Piano Fortes at the
Extreme Low Price of $225 apiece.
These Pianos are all with the celebrated Patent American Action, manufactured by George Hews, of Boston, Mass.
The Patent American Action Piano Forte is distinguished for its great fullness, roundness and sweetness of tone, evenness of scale, and delicacy of touch. The improvement of the Action renders it less liable to derangement, and also greatly facilitates execution. Numerous models, diplomas and certificates have been received from various fairs and industrial exhibitions in different cities of the Union, from the World's Fair at London, and flattering testimonials from the profession, residents of Boston and elsewhere, among which is the following:
The American Action Piano at the Great London Fair.
Boston, August 14, 1852
The undersigned, who were officially associated with the *Great Exhibition in London, are happy to bear testimony to the commendations bestowed on the instrument manufactured by our townsman, Mr. George Hews, by* gentlemen capable of appreciating both the tone of a Piano as well as its external finish and elegance of workmanship. The celebrated Pianist, THALBERG, who was on the musical jury, pronounced it one of the *sweetest* as well as *most perfect toned instruments* in the exhibition.
EDWARD RIDDLE, United States Commissioner to London Exhibition of 1851
J. V. C. SMITH, M. D.
Pianos to let. Old Pianos taken in exchange, and liberal prices allowed. Pianos tuned and repaired. Orders for tuning Pianos directed to Box 948, Post Office, will be promptly attended to.

A LARGE ASSORTMENT OF CHICKERING & SONS', BOARDMAN & GRAY'S, and other celebrated Pianos for sale at Manufacturers prices, which range from

The deservedly great reputation of these Instruments, has induced unprincipled men to counterfeit them, and many of their vile imitations are being offered for sale through the West.
The subscriber to guard the public against imposition would state that he is the only Agent in this City for Chickering & Sons and Boardman & Gray's Pianos and the only person who has the genuine article for sale.
The certificates of Agency can be seen at his Warerooms.

Truly Yours,
WM. LAIRD HAZLETT, M. D.

I must say, from my own experience and personal observations in my practice, it has proved to be the best and safest remedy for the difficulties for which it is recommended viz. that of female weakness, such as Prolapsus Uteri, Fluor Albus, and all irregularities of menstruation, and diseases of irritability of those organs.

No. 6 Kneeland's Block.
MILWAUKEE, WISCONSIN MARCH 30, 1855

INSURANCE EFFECTED UPON DWELLING HOUSes, Stores and other Buildings, Household Furniture, *Merchandise and other property against*
LOSS OR DAMAGE BY FIRE.

This is a new Company organized [illegible] 26 [illegible] January last, on the Mutual plan with the privilege by the charter of doing business on the Cash plan [illegible] Fire or Marine risks, but to the present time its business has been confined to the Mutual system of insurance on the very favorable and flattering manner in which it has been received by the insuring public it [illegible] Directors to make it a purely Mutual Company. Besides this, it is believed that the recent failures of many of the Eastern Companies has been owing mainly to the combination of the Cash and Mutual system in one Company.

This Company commenced business with a capital of $50,000 and have already issued upwards of 5[illegible] policies, and it is believed that, with proper caution as to the selection of risks, and rigid economy in expenses, we shall soon be enabled to make this Company such a one as will generally be preferred.

The recent failures of several of the old *Stock Companies, among the most prominent of which are the* Protection and Columbus, although it is believed that their business was conducted in the most proper manner, has had a tendency to shake the confidence of many of the most reliable and prominent insurance men in the Stock plan of insurance and have induced them to believe that the only safe and reliable Companies are those conducted on the Mutual principle.

As it is the design of the Directors to do a profitable, rather than a large and therefore doubtful business the company will take none except first class risks and at such rates as are deemed fully adequate to the risk. Agents are also instructed not to take to exceed $1000 upon any one risk in Village, within a circle of 4 in rods diameter which of course will present very great loss at one fire.

Applications for Insurance, respectfully solicited.

Highly Important to Farmers.
The only Exclusive Farmers' Insurance Company in the West.

THE MADISON MUTUAL,
Located at Madison, Wisconsin.

THIS COMPANY CONTINUES TO TAKE RISKS upon *Farm Property only,* consisting of buildings of all kinds, (belonging to farmers,) household furniture, grain in barns, live stock, &c., from one to five years, at lower rates than most other responsible Companies.

All losses promptly paid at the office as soon as proof is made thereon.

We believe it to be for the interest of the farmers to insure by themselves, their property being less hazardous than any other, consequently you will have no losses, only your own of the same class, and all will be on an equal footing.

Experience has shown that two thirds if not three fourths of all the fires that occur are upon stores, taverns, mills, shops, and such like property. In this Company all such property is rejected POSITIVELY BY LEAVING THEM ALONE.

Farmers, look to your own interest, and insure in a Farmers' Company.

We have been doing business a little over three years and we have not been obliged to assess our premium notes, and for the last *fourteen months we have not had a single dollar loss,* though doing a large and prosperous business, which we believe to be without a parallel in the history of insurance.

The best of references given as to the responsibility of the Company.

THIS Company offers unrivalled facilities for the insurance of Buildings and Personal Property against fire. The cost of insurance does not exceed one-third as much as in Stock Companies, saying nothing of the increased security and the incomparable ease with which losses are settled. Slander Suit—Non-Suit.

The *News* reports at some length a slander suit recently tried at the Milwaukee County Court before Judge Larrabee. John Jennings of this city, a witness in the examination of John A Messenger before Commissioner Smith, for alleged participation in the Glover Rescue, sued James H Paine of counsel for Messenger for slander, because he said of the plaintiff that "he came there with black perjury on his soul." The words being proven and the case for the plaintiff rested, defendant's counsel moved for a non suit on two grounds, to wit

First, on the plea of the general issue, because the occasion on which the words were spoken making them privileged, the presumption of malice was rebutted although the words were false, and the plaintiff could not recover without positive proof of malice beyond the mere speaking of words. He contended that there was no such proof to the Jury. Secondly, on the special pleas that although the accusation was entirely false, and made with malice yet that the defendant was protected by his privilege he at the time *acting as counsel* and the words spoken being pertinent to the issue pending

To this plaintiff's counsel replied that there was proof of malice aside from the mere speaking the words, and that the defendant had transcended the professional privilege, of which he sought to avail himself by using language unprovoked, unwarranted and irrelevant to the issue pending

The Court (Larrabee, Judge,) on the first point held with the plaintiff

It is unnecessary that proof of malice should be adduced, further than the words spoken The act of malice may be inferred from all the facts of the case, and it is unnecessary that express declarations or acts beyond them should be proved in order to show malice.

On the second point, the question of privilege, the Court held with the defendant. It is well settled that counsel may charge any crime against a witness if such charge is pertinent to the issue The facts of this case being admitted, were the words used relevant? Where the question of relevancy is a matter of doubt it should be left to the Jury to say whether they were relevant or not

The Court then proceeded to consider the relevancy of the charge of perjury against the plaintiff. It is in evidence that the defendant discussed the testimony of the plaintiff in connection with the charge, and although it appears that he made the charge before attempting to prove it to be true that fact is immaterial There is no doubt that the charge, though harsh and, perhaps unwarranted, was pertinent to the issue *It is scarcely possible that there can be a case before the Courts where the crime of perjury against a witness would not be relevant*

The words were not actionable, and the Court must interfere, to prevent the suit from going to the Jury. Motion for non-suit granted

The Erie Canal—Its early Projectors.

A series of interesting articles have recently been published in the Cleveland *Herald* on the subject of commerce on the great lakes and connections eastward. In a late chapter, the following reference is made to the writings of Jesse Hawley, of old Ontario Co, published in a paper at Canandaigua in 1807-8

In 1806 Jesse Hawley, a merchant of Geneva, was at Col. Wilhelmus Mynderse's Mills, at Seneca Falls attending to the shipment of some flour, made from wheat he had bought The Mills were situated at the head of navigation and Durham boats would load flour at the mill, go down the river to Oneida outlet and thence through that lake and Wood Creek, the Canal at Rome into the Mohawk to Schenectady. The flour was then taken by teams to Albany

By reason of the small size of the boats restricted by the dimensions of the water-ways an improved navigation was the subject of conversation between Hawley and Colonel the latter observing that, to get a more capacious water course for boats a *head of water* was needed—Dwelling on this thought and muttering to himself—a head of water—a head of water, Mr Hawley *soon* stepped to a map hanging in the mill office, and placing his finger at Buffalo, he drew it across the map to Utica There the exclaimed *is the head of water* Mr Hawley afterwards elaborated, this idea of "tapping Lake Erie" and "the overland route" in fourteen essays, published at intervals in the Genessee *Messenger*, at Canandaigua from October, 1807, to March, 1808, over the signature of "Hercules" A copy of the paper containing the essays was taken by the Board of Canal Commissioners in their tour of exploration in 1810 They were re-published by Dr Hosack in the appendix of his Memoirs of Clinton, in 1829 and the essays themselves deposited in the archives of the New York Historical society

These writings embraced not only the then great question of connecting the Hudson with the Lakes but considered prospectively the commerce of the lakes and pointed out the routes of many other canals to be connected with the western lakes, which have since been built, and yet further, the connection of the lakes with the Mississippi The lakes Erie and Michigan with their intermediate connections, a distance of 1000 *miles from Buffalo* to Chicago, are a grand *plateau of waters, a vast summit level* between the Hudson and the St. Lawrence on the one band and the Mississippi on the other, at an elevation of nearly 600 feet above tide water

Hawley's project was to tap this great *fountain head* at the eastern end, leading the waters into the Hudson, and at its western extremity, leading the waters into the Mississippi, forming an inland continuous navigation from the Atlantic through the lakes and up the Missouri to the very base of the Rocky Mountains, a distance of 4000 miles. This fountain head or reservoir, its surface 600 *feet* above tide water, *its bottom* 200 feet below the ocean's surface, has an area of 86 000 square miles and a mean depth of 800 *feet* its cubical contents, 1 832,161,920,000,000 feet, and the surplus or waste water running over Niagara Falls, as calculated many years ago by President Dwight, 80,000 000 tons per hour At this rate it would take *fifty years to* exhaust this reservoir, all the sources of supply being cut off This was Hawley's *stupendous reservoir* which he proposed to "tap" on opposite sides It is not very strange that such projects were somewhat in advance of public opinion, the articles were considered as "the effusions of a maniac" and hence the great difficulty he had of *persuading the printer* to go on as the numbers were successively offered

In these essays he described the route proper for the canal to take, and when the whole line was finally located in 1820 it was the theme of admiration and wonder of Clinton, Watson, and others that the located line corresponded so nearly with the prophetic one of "Hercules." The priority due *these writings* Dewitt Clinton thus enforces. "The first hint on this subject which I have seen in print was suggested by Jesse Hawley Esq, of Ontario county a gentleman of an ingenious and effecting mind On the 27th of October, 1807, he commenced a series of essays on internal navigation, under the signature of *Hercules*, in the Ontario *Messenger*, printed at Canandaigua, which extended to fourteen numbers"

TENTH JUDICIAL DISTRICT.

Election of S. R. Cotton.

Messrs Editors :

As we did not publish a *Crescent* on Saturday, on account of failure to receive a supply of paper, we send you the result of the Judicial Election on the first inst, presuming it will be of interest to your readers.

S R Cotton Esq in politics a whig, but who like his competitor (Judge Agry,) ran as an independent candidate, is unquestionably elected by a decided majority.

The result is attributed by many to the Nebraska load placed upon the shoulders of Judge Agry by a neighboring print, and not to any supposition that he lacked the ability requisite to make a good Judge

☞ The following is a well told story. If false, it is a "lie with circumstance" We can swallow most of it except the dimensions of the temple, concerning which we wait for further advices

Discovery of a New People on the Western Continent.—*A discovery* which even in this age of almost daily revelations of antiquities and wonders of remote times and people, must strike the world with wonder, has just been made by the officers of the sloop of war Decatur It will be recollected that the Decatur sailed from Rio in company with the Massachusetts (propellor)—that they parted company, and that for some weeks the loss of the Decatur was looked upon as certain She was afterwards discovered by her consort, part way through the Straits of Magellan, and was towed into the Pacific by the Massachusetts The New Orleans Picayune of the 1st inst, publishes a letter, received from O H Green, dated on board the Decatur, "off the Straits of Magellan, Feb 15" and which contains some statements so startling that we make the following extracts From the apparent respectability of the *source*, we see no reason for doubting the narrative, remarkable as it is. The writer says

There being no appearance of a change of weather, I obtained leave of absence for a few days, and *accompanied* by my classmate and chum, Dr. Bainbridge, Assistant Surgeon was landed on Terra del Fuego With great labor and difficulty we scrambled up the mountain side, which line the whole Southeast shore of these Straits, and after ascending 3 500 feet, we came upon a plain of surpassing richness and beauty, fertile fields—the greatest variety of fruit trees in full bearing, and signs of civilization and refinement meeting us *on* every side. We had never read any account of these people, and thinking this island was wholly deserted, except by a few miserable cannibals and wild beasts, we had come well armed, and you can judge of our surprise — The inhabitants were utterly astonished at our appearance, but exhibited no signs of fear, nor any *unfriendliness*. Our dress amused them, and being the first white men ever seen by them, they imagined that we had *come from their God*, the Sun, on some peculiar errand of good They are the noblest race I ever saw, the men all ranging from six feet to six and three fourths well proportioned, very athletic, and straight as an arrow The women were among the most perfect models of beauty ever formed, averaging five feet high, very plump with small feet and hands, and with a jet black eye which takes you by storm We surrendered at discretion, and remained two weeks with this strange people

Their teachers of religion speak the Latin language, and have traditions from successive priests, through half a hundred centuries.

They tell us that this island was once attached to the main land, that about 1900 years ago, by their records their country *was visited* by a violent earthquake, which occasioned the rent now known as the Straits of Magellan, that on the top of the mountain which lifted its head to the sun, whose base rested where the waters now flow, stood their great temple, which, according to their description as compared to the one now existing we saw, must have been 17,200 feet square, and over 1100 feet high, built of the purest pantile marble

The ship is in sight that will carry this to you and I must now close, only saying that the official report of Dr. Bainbridge to the Department, will be filled with the most interesting and valuable matter and astonish the American people. The vessel proves to be the clipper ship Creeper, from the Chinchi Islands, with guano, for your port, and I will avail myself of this opportunity to send a specimen of painting on porcelain, *said* to be over three thousand years old, and an image, made of gold and iron, taken in one of their wars many years before the straits of Magellan existed

They number about three thousand men, women and children, and I was assured the population had not varied two hundred, as they prove by their traditions, *for immemorial ages*. As the aged grow feeble they are left to die, and if they children multiply too rapidly they are sacrificed by the priests This order comprises about one tenth of the population, and what the ancient Greeks called Gymnophists They are all of one peculiar race neither will they admit a stranger into their order They live, for the most part, near the beautiful stream called Tanucan, which takes its rise in the mountains, passes through the magnificent valley of Leuvu, and empties into the Atlantic at the South-western point of the Island

This residence is chosen for the sake of their frequent purifications. Their diet consists of milk, curdled with sour herbs. They eat apples, rice and all fruit and vegetables, esteeming it the height of impiety to taste anything that has life They live in little huts or cottages, each one by himself, avoiding company and discourse employing all their time in contemplation and their religious duties They esteem this life but a necessary dispensation of Nature, which they voluntarily do as a penance, evidently thirsting after the dissolution of their bodies, and firmly believing that the soul at death is released from prison, and launches forth into perfect liberty and happiness. Therefore, they are always cheerfully disposed to die, bewailing those that are alive, and celebrating the funerals of the dead with joyful solemnities and triumph —*Buffalo Democracy*.

The Weather and Crops —Though as yet the weather has been rather cold, yet it has been about the thing for wheat. It has been warm enough to give the crops in the ground an excellent start yet cold enough to prevent the appearance of the insects whose presence is often so destructive to the finest field We are told that nothing has so far occured to mar in the least the promises of an abundant harvest. Our farmers have planted largely, and we hope they will gather abundantly —[Watertown Democrat.

Building —Considerable building is now going on in this city. A large number of dwelling houses, and several fine blocks are in course of construction The scarcity of material and help is all that hinders much more being done than is now commenced It is almost impossible to get a mechanic or a laborer to do the most trifling job, so great is the demand for workmen at the highest cash prices. More houses are wanted, and as soon as a rumor gets afloat that a new Block is to be built, applications by the score are made at once for the refusal of a store or office.—[Watertown Democrat.

John J Orton vs J A. Noonan et al. Judgment of *nonsuit* and for costs against plaintiff.

Chas. H. Silkman, adm'r, et al vs Levi J Merrick et al Motion to set aside report of commissioner

C Oakley et al vs J Hadley. Order to plead and application for injunction.

Ludwig von Baumbach vs Henry N Starr Demurrer.

S M Brownell vs James F Brownel Affidavit of publication of order, order pro-confesso and order of reference

Bertha Jansen vs Andrew Jansen, decree of divorce

Grand Jury presented indictments against the following named *persons*

Leopard Hardke, *for forgery*

Michael Dwyer for assault with intent to murder.

Eli Ramspeck, *for larceney* in a shop

John Goodmann, for assault with intent to kill.

Grand Jury —It was understood yesterday, that the Grand Jury would be discharged this morning, they have been in session about five days that is calling *four hours* a day, although not a laborer's day, sufficient for a *day* in the *service* of the county The indictments are about eleven in number Assault with intent to murder, is the highest crime charged

The Runner Nuisance —We have been requested several times, of late, to call the attention of the authorities to the outrageous noise made by the drivers and runners for different Hotels, at the Railroad depot, and steamboat landings. It is true enough that the employees of the best hotels make the least noise, but everybody does not understand this fact, and there is no reason why peaceable people should be annoyed by the outrageous din made by those connected with other houses

The Ordinance of March 20th, 1852, imposes a penalty of from $2 to $20 upon these runners for disturbing the peace and also gives the Mayor, Marshal, or other officer, power to give directions for preserving the peace, while it imposes a penalty of $50 for refusal to obey such directions, and another ordinance *makes it the duty of the Marshal to see that the city laws are obeyed*

We hope the Mayor will attend to this subject, and have the outrageous nuisance abated forthwith.

The O'Doherty Papers, by the late William Maginn, L L D, annotated by Dr Shelton Mackenzie, 2 vols. Redfield, N Y, publisher

We have from Wilson, bookseller, an early copy of this *interesting series* of sketches, tales, &c., in prose and verse, by Dr Maginn, whose name is familiar to vast numbers of the readers of "Blackwood's Magazine, as one of the most valued contributors to that famous old monthly

Under the *soubriquet* of Morgan O'Doherty the writer for a long time contributed many of the most readable articles for *Blackwood*, and it is gratifying to those who have admired them in their original form to be able to possess them as now issued by Redfield Among the best of the pieces are the "Memoir of Morgan O'Doherty," the Ballad of Chevy Chase rendered into Latin, Pococurante, Bob Burke's duel with Ensign Brady, and Lectures on the death of Donelly,—

> "Mourn for old Ireland's hopes decayed,
> Her bruisers weep in mournful strain,
> Their fair example prostrate laid,
> By seven and forty tumblers slain"

Besides these, there are the Anecdotes and Facetia, the Last Words of Charles Edwards, Esq and numerous critiques upon numerous works of the day, which Maginn handled roughly enough, particularly some of Byron's poems.

Farm for Sale —The very desirable farm of Dr McLane, in Waukesha *County, is advertised* for sale in our columns this morning For price and other particulars, application may be made to D G Power, Esq, Real Estate Agent in this city The farm is an excellent one, and delightfully situated

We learn from Mr Power, that he has just sold to a gentleman *from* Cleveland, the well-known Cox Farm, on Pine Lake, Waukesha County, which was advertised in our paper a short time since.

There is quite a demand for good improved farms now, and those having such property for sale, will be pretty sure to find a customer, by advertising in the *Sentinel*

A Wife Whipper at Liberty —An old man named *Frederick Dupont* was discharged from jail yesterday, having been imprisoned about nine months. His sentence for a brutal assault and battery upon his *wife*, was $50 fine, at the end of six months he was entitled to a discharge upon swearing he was unable to pay it But a few days previous to that time, and while in jail, he threatened that he would "pound her if he got out," when he was kept in jail till he promised to behave well For the last five years this man must have spent *one third* of his time in jail for beating and pounding his wife, an industrious old woman, his cruelty to her is without a parallel in our knowledge

☞ Ex-Gov Seymour, of New York, arrived in our city on Thursday evening, and *left* for the North yesterday morning, to take a look in the Fox and Wisconsin Rivers Improvement, in which he is interested

La Crosse & Milwaukee Rail Road.—The work of track-laying has been re-commenced on this road, by the contractor, Mr. Cleveland, and will be prosecuted vigorously

Real Estate Sales—By Caleb Wall Lots No. 23, 24, 12 and 16, corner of Albion and Prospect streets, 1st Ward, 50 by 100 *feet* each, $2500.

Charles Hart, of Wauwatosa, has sold 160 acres near that village, for $1100, to James Ludington, of this city.

W. S. Wells has sold 83 acres in the town of Greenfield, five miles out, for $6000.

Admitted to Bail —A boy named Goodman, of the town of Lake, who was indicted by the present Grand Jury, for assault with intent to kill, was yesterday admitted to bail in the sum of $2,000, and discharged *from* jail.

Balloon and Fireworks.—The postponed exhibition of Fireworks and the ascension of the Balloon, comes off to-night. The show of Fireworks will be well worth the price of admission; and to see the Balloon go up will be exceedingly interesting.

" Farmer, ... 100 "

In addition to the above, a schooner of about 150 tons will be launched shortly by Capt Barber The brig Ocean has also been purchased, and is owned here

* Built here since the close of navigation

Vessel Crews —We learn that Messrs Billings & Dickinson shipped crews for about fifty vessels yesterday before, on the terms proposed sometime since by the Board of Trade The system is beyond question one that will be productive of decided advantage to vessel owners, and all who transact business on the lakes Messrs Billings & Dickinson are the capable pioneers in this new business —*Buffalo Courier 4th*

Launch The fine schooner Harvest Home, 312 tons burthen, was launched from the ship yard of Lamour & Stevenson at Cleveland on Saturday 4th She is owned by Messrs Burgos & Recse, and is one of the finest vessels of her size Dimensions—length of keel 121 feet, breadth 10-6 feet, beam 25½

Propeller Ogontz —We learn by a private telegraph received yesterday that the propeller Ogontz, which left this port last week went ashore on Monday night at Marblehead near Sandusky Bay She would be got off —[Buffalo Democracy.

First Sail from the Upper Lakes.—The schooner Wm H DeWitt, from Milwaukee, was the first sail vessel to enter our harbor from the Upper Lakes and she was soon followed by the Oconto, the first *from* Chicago —[Buffalo Democracy

☞ We learn from some fishermen who came down yesterday that, when some three or four miles off Point aux Barques, they discovered the mast of the foundered propeller Bucephalus — It was standing out of the water some ten or twelve feet.—[Det Trib.

The St Clair Flats —We are informed that the water upon the St Clair Flats has been ascertained to be *fourteen* inches deeper in the channel than it was last fall making a very favorable state of navigation for heavy laden vessels This state of things seems to have excited the cupidity of some of the parties interested in the impediments to *free navigation*, and the stakes which mark the channel have been shifted, evidently for the purpose of *misleading those* who are not intimately acquainted with the intricacy of the channel, and getting vessels aground The Custom House authorities should attend to these stakes immediately, and have them moved to their true positions There are large numbers of vessels with cargoes, which will pass those flats during the next ten days, and any detention in getting to market, may render the owners of both vessels and cargoes liable to most serious losses, which our lake commercial men can ill afford to suffer at the beginning of the season's business —[Det. Dem. & Inq

☞ The Buffalo *Express* of the 9th inst. says,

The schooner ashore at the head of Squaw Island is the Garden City, from Chicago, with a cargo of grain She was only four inches out on Sunday, but the southerly wind of yesterday lowered the water, so that she is out two feet. She will be got off by lighting without damage.

New York, May 7

In the case of Col Kinney and Mr Fabens, Judge Ingersoll ruled that the case should go on, but the *District Attorney* claimed that the law left it at his disposal to call up the case at any time during the first term after the indictment The case, therefore, stands over, and the Judge released the sureties in the matter, and requested Kinney and Fabens to enter into their own recognizances for $10,000 each, to appear and answer

The application of Miss Bunkley, the escaped Emmetsburgh *Nun, for an injunction* for restraining the publication of her developments, came up in the U S Circuit Court and no decision had been reached.

Hunt's bridge on the Harlem R R, near Brockville, was burned last night—no interruption takes place to passenger trains—the bridge was a single span of 200 feet, build of wood and iron

The Schooner John Clark, Capt McRay, was lost on her passage from this port to Jacmell, by becoming water logged Her Captain and four others perished on the wreck from starvation, and two men the balance of the crew, were taken off and brought to this port, having had nothing to eat for 8 days previous

Monroe and Environs.—The village of Monroe is improving quite fast enough for the wants of those who desire to come here and live. Since we came to this town—one year last fall—there have grown up in the midst of the place some forty dwellings. We were not aware of this until we took a walk about town for the purpose of noting its growth for the last 18 months

This is decidedly more improvement than we had anticipated. One year and a half ago the population of Monroe was about 1000 Last Spring a count of the people was taken by T. H Eaton, and he made, we believe, eleven hundred and fifty Now we think we may count fifteen hundred without exaggeration.

The business of Monroe, for a place of its size, is enormous One single mercantile establishment has sold, the *year past, over eighty thousand dollars* worth of goods. The sale of merchandise for the last year has not fallen much short of $250 000 No country not eminently prosperous could afford such an immense expenditure —yet our agriculturists seem prosperous, and are certainly becoming wealthy.—[Monroe Sentinel.

Buffalo Correspondence.

Buffalo, May 9th, 1855

Editors Sentinel —The wind has been blowing hard from the North since yesterday noon, and this morning the ice still seems to be permanently fixed, unless the wind still leaves es. No arrivals from the Upper Lakes as yet.

* * * * * * * * *

The cargo of corn per schr *Mary*, of about 7,000 bushels was sold yesterday at 93c, and 500 bus of it at 1,00 in small lots to country distillers It would bring this *morning* 93a95c quick I think, since the *Asia's* news The cargo of wheat per *B S Shepard* is not yet sold, 1,60 was offered for a portion of it—it is held at 1,90, and *may* possibly bring it to day

There will be a brisk demand for grain here and at Oswego as soon as business fairly commences (when the lake opens,) and all who hold grain had better ship as fast as possible without *reference to 2 or 3c on* lake freights as usual freights will be very low till the fleet now here goes west and returns say 15th to 18th June

There is little or no freight to go forward from here as yet, and as only about 25 of the fleet got away last week, freights must rule low on the Canal till June

Corn may go to $1,00 here, and good fair wheat will bring extravagant prices

No 2 flour, from *Montezuma* is selling at 8,00 that was shipped last fall from Milwaukee Gen'l Harrison bought a *cargo of corn* yesterday to arrive in June at 80c, and resold at 87½ *He feels fine*, he has a cargo of corn on schr *Camp*, which cost 66c here, and he will get 95c The vessel is in sight in the ice and has 17000 bus on board H

Slander Suit—Non-Suit.

The *News* reports at some length a slander suit recently tried at the Ozaukee County Court before Judge Larrabee. John Jennings of this city, a witness in the examination of John A Messenger before Commissioner Smith, for alleged participation in the Glover Rescue, sued James H Paine of counsel for Messenger for slander, because he said of the plaintiff that "he came there with black perjury on his soul" The words being proven and the case for the plaintiff rested, defendant's counsel moved for a non suit on two grounds, to wit

First, on the plea of the general issue, because the occasion on which the words were spoken making them privileged, the presumption of malice was rebutted although the words were false, and the plaintiff could not recover without positive proof of malice beyond the mere speaking of words. He contended that there was no such proof to the Jury Secondly, on the special pleas that although the accusation was entirely *false*, and made with malice yet that the defendant was protected by his privilege he at the time *acting* as counsel and the words spoken being pertinent to the issue pending

To this plaintiff's counsel replied that there was proof of malice aside from the mere speaking the words, and that the defendant had transcended the professional privilege, of which he sought to avail himself by using language unprovoked, unwarranted and irrelevant to the issue pending

The Court (Larrabee, Judge,) on the first point held with the plaintiff

It is unnecessary that proof of malice should be adduced, further than the words spoken The act of malice may be inferred from all the facts of the case, and it is unnecessary that express declarations or acts beyond them should be proved in order to show malice.

On the second point, the question of privilege, the Court held with the defendant. It is well settled that counsel may charge any crime against a witness if such charge is pertinent to the issue The facts of this case being admitted, were the words used relevant? Where the question of relevancy is a matter of doubt it should be left to the Jury to say whether they were relevant or not

The Court then proceeded to consider the relevancy of the charge of perjury against the plaintiff. It is in evidence that the defendant discussed the testimony of the plaintiff in connection with the charge, and although it appears that he made the charge before attempting to prove it to be true that fact is immaterial There is no doubt that the charge, though harsh and, perhaps unwarranted, was pertinent to the issue *It is scarcely possible that there can be a case before the Courts where the crime of perjury against a witness would not be relevant*

The words were not actionable, and the Court must *interfere*, to prevent the suit from going to the Jury. Motion for non-suit granted

The Erie Canal—Its early Projectors.

A series of interesting articles have recently been published in the Cleveland *Herald* on the subject of commerce on the great lakes and connections eastward. In a late chapter, the following reference is made to the writings of Jesse Hawley, of old Ontario Co, published in a paper at Canandaigua in 1807-8

In 1806 Jesse Hawley, a merchant of Geneva, was at Col. Wilhelmus Mynderse's Mills, at Seneca Falls, attending to the shipment of some flour, made from wheat he had bought The Mills were situated at the head of navigation and Durham boats would load flour at the mill, go down the river to Oneida outlet and thence through that lake and Wood Creek, the Canal at Rome into the Mohawk to Schenectady. The flour was then taken by teams to Albany

By reason of the small size of the boats restricted by the dimensions of the water-way, an improved navigation was the subject of conversation between Hawley and Colonel the latter observing that, to get a more capacious water course for boats *a head of water* was needed — Dwelling on this thought and muttering to himself—a head of water—a head of water, Mr Hawley soon stepped to a map hanging in the mill office, and placing his finger at Buffalo, he drew it across the map to Utica There the exclaimed *is the head of water* Mr Hawley afterwards elaborated, this idea of "tapping Lake Erie" and "the overland route" in fourteen essays, published at intervals in the Genessee *Messenger*, at Canandaigua from October, 1807, to March, 1808, over the signature of "Hercules" A copy of the paper containing the essays was taken by the Board of Canal Commissioners in their tour of exploration in 1810 They were re-published by Dr Hosack in the appendix of his Memoirs of Clinton, in 1829 and the essays themselves deposited in the archives of the New York Historical Society

These writings embraced not only the then great question of connecting the Hudson with the Lakes but considered prospectively the commerce of the lakes and pointed out the routes of many other canals to be connected with the western lakes, which have since been built, and yet further, the connection of the lakes with the Mississippi The lakes Erie and Michigan with their intermediate connections, a distance of 1000 *miles from Buffalo* to Chicago, are a grand *plateau* of waters, a vast *summit level* between the Hudson and the St. Lawrence on the one hand and the Mississippi on the other, at an elevation of nearly 600 feet above tide water

Hawley's project was to tap this great *fountain head* at the eastern end, leading the waters into the Hudson, and at its western extremity, leading the waters into the Mississippi, forming an inland continuous navigation from the Atlantic through the lakes and up the Missouri to the very base of the Rocky Mountains, a distance of 4000 miles. This fountain head or reservoir, its surface 600 feet above tide water its bottom 200 feet below the ocean's surface, has an area of 86 000 square miles and a mean depth of 800 feet its cubical contents, 1 832,161,920,000,000 feet, and the surplus or waste water running over Niagara Falls, as calculated many years ago by President Dwight, 80,000 000 tons per hour At this rate it would take fifty years to exhaust this reservoir, all the sources of supply being cut off This was Hawley's *stupendous reservoir* which he proposed to "tap" on opposite sides It is not very strange that such projects were somewhat in advance of public opinion, the articles were considered as "the effusions of a maniac" and hence the great difficulty he had of *persuading the printer* to go on as the numbers were successively offered

In these essays he described the route proper for the canal to take, and when the whole line was finally located in 1820 it was the theme of admiration and wonder of Clinton, Watson, and others that the located line corresponded so nearly with the prophetic one of "Hercules." The priority due these writings Dewitt Clinton thus enforces. "The first hint on this subject which I have seen in print was suggested by Jesse Hawley Esq, of Ontario county a gentleman of an ingenious and effecting mind On the 27th of October, 1807, he commenced a series of essays on internal navigation, under the signature of Hercules, in the Ontario *Messenger*, printed at Canandaigua, which extended to fourteen numbers."

TENTH JUDICIAL DISTRICT.

Election of S. R. Cotton.

APPLETON, May 9 1855

Messrs Editors:

As we did not publish a *Crescent* on Saturday, on account of failure to receive a supply of paper, we send you the result of the Judicial Election on the first inst, presuming it will be of interest to your readers.

S R Cotton Esq in politics a whig, but who like his competitor (Judge Agry,) ran as an independent candidate, is unquestionably elected by a decided majority.

The result is attributed by many to the Nebraska load placed upon the shoulders of Judge Agry by a neighboring print, and not to any supposition that he lacked the ability requisite to make a good Judge

☞ The following is a well told story. If false, it is a "lie with circumstance" We can swallow most of it except the dimensions of the temple, concerning which we wait for further advices

Discovery of a New People on the Western Continent.—A discovery which even in this age of almost daily revelations of antiquities and wonders of remote times and people, must strike the world with wonder, has just been made by the officers of the sloop of war Decatur It will be recollected that the Decatur sailed from Rio in company with the Massachusetts (propeller)—that they parted company, and that for some weeks the loss of the Decatur was looked upon as certain. She was *afterwards discovered by her consort*, part way through the Straits of Magellan, and was towed into the Pacific by the Massachusetts The New Orleans Picayune of the 1st inst, publishes a letter, received from C H Green, dated on board the Decatur, "off the Straits of Magellan, Feb 15" and which contains some statements so startling that we make the following extracts From the apparent respectability of the source, we see no reason for doubting the narrative, remarkable as it is. The writer says

There being no appearance of a change of weather, I obtained leave of absence for a few days, and accompanied by my classmate and chum, Dr. Bainbridge, Assistant Surgeon was landed on Terra del Fuego With great labor and difficulty we scrambled up the mountain sides, which line the whole Southeast shore of these Straits, and after ascending 3 500 feet, we came upon a plain of surpassing richness and beauty, fertile fields—the greatest variety of fruit trees in full bearing, and signs of civilization and refinement meeting us on every side. We had never read any account of these people, and thinking this island was wholly deserted, except by a few miserable cannibals and wild beasts, we had come well armed, and you can judge of our surprise — The inhabitants were utterly astonished at our appearance, but exhibited no signs of fear, nor any unfriendliness. Our dress amused them, and being the first white men ever seen by them, they imagined that we had come from their God, the Sun, on some peculiar errand of good They are the noblest race I ever saw, the men all ranging from six feet to six and three fourths well proportioned, very athletic, and straight as an arrow The women were among the most perfect models of beauty ever formed, averaging five feet high, very plump with small feet and hands, and with a jet black eye which takes you by storm We surrendered at discretion, and remained two weeks with this strange people

Their teachers of religion speak the Latin language, and have traditions from successive priests, through half a hundred centuries.

They tell us that this island was once attached to the main land, that about 1980 years ago, by their records their country was visited by a violent earthquake, which occasioned the rent now known as the Straits of Magellan, that on the top of the mountain which lifted its head to the sun, whose base rested where the waters now flow, stood their great temple, which, according to their description as compared to the one now existing we saw, must have been 17,200 feet square, and over 1100 feet high, built of the purest pantile marble

The ship is in sight that will carry this to you and I must now close, only saying that the official report of Dr. Bainbridge to the Department, will be filled with the most interesting and valuable matter and astonish the American people. The vessel proves to be the clipper ship Creeper, from the Chincha Islands, with guano, for your port, and I will avail myself of this opportunity to send a specimen of painting on porcelain, said to be over three thousand years old, and an image, made of gold and iron, taken in one of their wars many years before the straits of Magellan existed

They number about three thousand men, women and children, and I was assured the population had not varied two hundred, as they prove by their traditions, for immemorial ages. As the aged grow feeble they are left to die, and if they children multiply too rapidly they are sacrificed by the priests This order comprises about one tenth of the population, and what the ancient Greeks called Gymnophists * They are all of one peculiar race neither will they admit a stranger into their order They live, for the most part, near the beautiful stream called Tannean, which takes its rise in the mountains, passes through the magnificent valley of Leuvo, and empties into the Atlantic at the South-western point of the Island

This residence is chosen for the sake of their frequent purifications. Their diet consists of milk, curdled with sour herbs. They eat apples, rice and all fruit and vegetables, esteeming it the height of impiety to taste anything that has life They live in little huts or cottages, each one by himself, avoiding company and discourse employing all their time in contemplation and their religious duties They esteem this life but a necessary dispensation of Nature, which they voluntarily do as a penance, evidently thirsting after the dissolution of their bodies, and firmly believing that the soul at death is released from prison, and launches forth into perfect liberty and happiness. Therefore they are always cheerfully disposed to die, bewailing those that are alive, and celebrating the funerals of the dead with joyful solemnities and triumph —*Buffalo Democracy*.

The Weather and Crops —Though as yet the weather has been rather cold, yet it has been about the thing for wheat. It has been warm enough to give the crops in the ground an excellent start yet cold enough to prevent the appearance of the insects whose presence is often so destructive to the finest field We are told than nothing has so far occured to mar in the least the promises of an abundant harvest. Our farmers have planted largely, and we hope they will gather, abundantly —[Watertown Democrat.

Building —Considerable building is now going on in this city. A large number of dwelling houses, and several fine blocks are in course of construction The scarcity of material and help is all that hinders much more being done than is now commenced It is almost impossible to get a mechanic or a laborer to do the most trifling job, so great is the demand for workmen at the highest cash prices. More houses are wanted, and as soon as a rumor gets afloat that a new block is to be built, applications by the score are made at once for the refusal of a store or office.—[Watertown Democrat.

POLICE COURT---May 11.

BEFORE CLINTON WALWORTH, ESQ, POLICE JUSTICE

A warrant was issued against James Collins for assault and battery upon Patrick Turner

CIRCUIT COURT.

JUDGE HUBBELL, PRESIDING.

Thursday, May 11. 1855

John J Orton vs J A. Noonan et al. Judgment of *nonsuit* and for costs against plaintiff.

Chas. H. Silkman, adm'r, et al vs Levi J Merrick et al Motion to set aside report of commissioner

C Oakley et al vs J Hadley. Order to plead and application for injunction.

Ludwig von Baumbach vs Henry N Starr Demurrer.

S M Brownell vs James F Brownel Affidavit of publication of order, order pro-confesso and order of reference

Bertha Jansen vs Andrew Jansen, decree of divorce

Grand Jury presented indictments against the following named persons

Leopard Hardke, for forgery

Michael Dwyer for assault with intent to murder.

Eli Ramspeck, for larceny in a shop

John Goodmann, for assault with intent to kill.

Grand Jury —It was understood yesterday, that the Grand Jury would be discharged this morning, they have been in session about five days that is calling *four hours* a day, although not a laborer's day, sufficient for a *day* in the *service* of the county The indictments are about eleven in number Assault with intent to murder, is the highest crime charged

The Runner Nuisance —We have been requested several times, of late, to call the attention of the authorities to the outrageous noise made by the drivers and runners for different Hotels, at the Railroad depot, and steamboat landings. It is true enough that the employees of the best hotels make the least noise, but everybody does not understand this fact, and there is no reason why peaceable people should be annoyed by the outrageous din made by those connected with other houses

The Ordinance of March 20th, 1852, imposes a penalty of from $2 to $20 upon these runners for disturbing the peace and also gives the Mayor, Marshal, or other officer, power to give directions for preserving the peace, while it imposes a penalty of $50 for refusal to obey such directions, and another ordinance *makes it the duty of the Marshal to see that the city laws are obeyed*

We hope the Mayor will attend to this subject, and have the outrageous nuisance abated forthwith.

The O'Doherty Papers, by the late William Maginn, L L D, annotated by Dr Shelton Mackenzie, 2 vols, Redfield, N Y, publisher

We have from Wilson, bookseller, an early copy of this interesting series of sketches, tales, &c., in prose and verse, by Dr Maginn, whose name is familiar to vast numbers of the readers of "Blackwood's Magazine, as one of the most valued contributors to that famous old monthly

Under the *soubriquet* of Morgan O'Doherty the writer for a long time contributed many of the most readable articles for Blackwood, and it is gratifying to those who have admired them in their original form to be able to possess them as now issued by Redfield Among the best of the pieces are the "Memoir of Morgan O'Doherty," the Ballad of Chevy Chase rendered into Latin, Pococurante, Bob Burke's duel with Ensign Brady, and Lectures on the death of Donelly,—

"Mourn for old Ireland's hopes decayed,
Her bruisers weep in mournful strain,
Their fair example prostrate laid,
By seven and forty tumblers slain"

Besides these, there are the Anecdotes and Facetiæ, the Last Words of Charles Edwards, Esq and numerous critiques upon numerous works of the day, which Maginn handled roughly enough, particularly some of Byron's poems.

Farm for Sale —The very desirable farm of Dr McLane, in Waukesha County, is advertised for sale in our columns this morning For price and other particulars, application may be made to D G Power, Esq, Real Estate Agent in this city The farm is an excellent one, and delightfully situated

We learn from Mr Power, that he has just sold to a gentleman from Cleveland, the well-known Cox Farm, on Pine Lake, Waukesha County, which was advertised in our paper a short time since.

There is quite a demand for good improved farms now, and those having such property for sale, will be pretty sure to find a customer, by advertising in the *Sentinel*

A Wife Whipper at Liberty —An old man named Frederick Dupont was discharged from jail yesterday, having been imprisoned about nine months. His sentence for a brutal assault and battery upon his wife, was $50 fine, at the end of six months he was entitled to a discharge upon swearing he was unable to pay it But a few days previous to that time, and while in jail, he threatened that he would "pound her if he got out," when he was kept in jail till he promised to behave well For the last five years this man must have spent one third of his time in jail for beating and pounding his wife, an industrious old woman, his cruelty to her is without a parallel in our knowledge

☞ Ex-Gov Seymour, of New York, arrived in our city on Thursday evening, and left for the North yesterday morning, to take a look in the Fox and Wisconsin Rivers Improvement, in which he is interested

La Crosse & Milwaukee Rail Road.—The work of track-laying has been re-commenced on this road, by the contractor, Mr. Cleveland, and will be prosecuted vigorously

Real Estate Sales—By Caleb Wall Lots No. 23, 24, 12 and 16, corner of Albion and Prospect streets, 1st Ward, 50 by 100 feet each, $2500.

Charles Hart, of Wauwatosa, has sold 180 acres near that village, for $1100, to James Ludington, of this city.

W. S. Wells has sold 83 acres in the town of Greenfield, five miles out, for $6000.

Admitted to Bail —A boy named Goodman, of the town of Lake, who was indicted by the present Grand Jury, for assault with intent to kill, was yesterday admitted to bail in the sum of $3,000, and discharged from jail.

Balloon and Fireworks.—The postponed exhibition of Fireworks and the ascension of the Balloon, comes off to-night. The show of Fireworks will be well worth the price of admission; and to see the Balloon go up will be exceedingly interesting.

Addition to our Fleet —The following named vessels have been enrolled at the Custom House in this city this spring, in addition to the fleet hitherto owned here

Brig	A[illegible]omah	369 tons.

"	Sacramento	110	
"	J M Jones*,	136	"

"	North Cape*,	107	"
"	Farmer,	100	"

In addition to the above, a schooner of about 150 tons will be launched shortly by Capt Barber The brig Ocean has also been purchased, and is owned here

* Built here since the close of navigation

Vessel Crews —We learn that Messrs Billings & Dickinson shipped crews for about fifty vessels yesterday before, on the terms proposed sometime since by the Board of Trade The system is beyond question one that will be productive of decided advantage to vessel owners, and all who transact business on the lakes Messrs Billings & Dickinson are the capable pioneers in this new business —*Buffalo Courier* 4th

Launch The fine schooner Harvest Home, 312 tons burthen, was launched from the ship yard of Lamcar & Stevenson at Cleveland on Saturday 4th She is owned by Messrs Bergen & Reese, and is one of the finest vessels of her size Dimensions—length of keel 121 feet, hold 10½ feet, beam 25½

Propeller Ogontz —We learn by a private telegraph received yesterday that the propeller Ogontz, which left this port last week went ashore on Monday night at Marblehead near Sandusky Bay She would be got off —[Buffalo Democracy.

First Sail from the Upper Lakes.—The schooner Wm H DeWitt, from Milwaukee, was the first sail vessel to enter our harbor from the Upper Lakes and she was soon followed by the Oconto, the first from Chicago —[Buffalo Democracy

☞ We learn from some fishermen who came down yesterday that, when some three or four miles off Point aux Barques, they discovered the mast of the foundered propeller Bucephalus — It was standing out of the water some ten or twelve feet.—[Det Trib.

The St Clair Flats —We are informed that the water upon the St Clair Flats has been ascertained to be *fourteen* inches deeper in the channel than it was last fall making a very favorable state of navigation for heavy laden vessels This state of things seems to have excited the cupidity of some of the parties interested in the impediments to free navigation, and the stakes which mark the channel have been shifted, evidently for the purpose of *misleading* those who are not intimately acquainted with the intricacy of the channel, and getting vessels aground The Custom House authorities should attend to these stakes immediately, and have them moved to their true positions There are large numbers of vessels with cargoes, which will pass those flats during the next ten days, and any detention in getting to market, may render the owners of both vessels and cargoes liable to most serious losses, which our lake commercial men can ill afford to suffer at the beginning of the season's business —[Det. Dem. & Inq

☞ The Buffalo *Express* of the 9th inst. says, The schooner ashore at the head of Squaw Island is the Garden City, from Chicago, with a cargo of grain She was only *four* inches out on Sunday, but the southerly wind of yesterday lowered the water, so that she is out two feet. She will be got off by lighting without damage.

New York, May 7

In the case of Col Kinney and Mr Fabens, Judge Ingersoll ruled that the case should go on but the District Attorney claimed that the law left it at his disposal to call up the case at any time during the first term after the indictment The case, therefore, stands over, and the Judge released the sureties in the matter, and requested Kinney and Fabens to enter into their own recognizances for $10,000 each, to appear and answer

The application of Miss Bunkley, the escaped Emmetsburgh Nun, for an injunction for restraining the publication of her developments, came up in the U S Circuit Court, and no decision had been reached.

Hunt's bridge on the Harlem R R, near Brockville, was burned last night—no interruption takes place to passenger trains—the bridge was a single span of 200 feet, build of wood and iron

The Schooner John Clark, Capt McRay, was lost on her passage from this port to Jacmell, by becoming water logged Her Captain and four others perished on the wreck from starvation, and two men the balance of the crew, were taken off and brought to this port, having had nothing to eat for 8 days previous

Monroe and Environs.—The village of Monroe is improving quite fast enough for the wants of those who desire to come here and live. Since we came to this town—one year last fall—there have grown up in the midst of the place some forty dwellings We were not aware of this until we took a walk about town for the purpose of noting its growth for the last 18 months

This is decidedly more improvement than we had anticipated. One year and a half ago the population of Monroe was about 1000 Last Spring a count of the people was taken by T. H Eaton, and he made, we believe, eleven hundred and fifty Now we think we may count fifteen hundred without exaggeration.

The business of Monroe, for a place of its size, is enormous One single mercantile establishment has sold, the *year past, over eighty thousand dollars* worth of goods. The sale of merchandise for the last year has not fallen much short of $250 000 No country not eminently prosperous could afford such an immense expenditure —yet our agriculturists seem prosperous, and are certainly becoming wealty,—[Monroe Sentinel.

There will be a brisk demand for grain here and at Oswego as soon as business fairly commences (when the lake opens,) and all who hold grain had better ship as fast as possible without reference to 2 or do on lake freights as canal freights will be very low till the fleet now here goes west and returns say 10th to 15th June

There is little or no freight to go forward from here as yet, and as only about 25 of the fleet got away last week, freights must rule low on the Canal till June

Corn may go to $1,00 here, and good fair wheat will bring extravagant prices

FOR SALE.

A VERY DESIRABLE LAKE FARM, EMbracing one of the most delightful country residences in Wisconsin, 25 miles from Milwaukee, on the Milwaukee & Watertown Railroad and Plank Road.

The subscriber offers at private sale, READLAND, the well known farm upon which he now resides, situated about two miles from the village of Hartland, Waukesha Co., and containing about 550 acres, 250 of which are under cultivation, well fenced, and divided into convenient fields.

This body of land is unsurpassed in richness and productiveness of soil, and for beauty of scenery and location, acknowledged to be one of the most desirable residences in the State. It is bounded upon the West, to a large extent, by Pine Lake, one of the largest and most beautiful of our inland Lakes, giving it superior advantages for water power and bathing, and the Lake abounds with fish and game in great variety.

Situated upon the Milwaukee & Watertown Rail and Plank Roads, and within a short walk of Pine Lake Station and Hartland Depot, it is easy of access and communication with Milwaukee, affording ready market for all kinds of produce, besides good stores and grist mills in the neighboring villages of Delafield, Hartland and Oconomowoc.

The Nashotah Theological Seminary is within 3 miles, and churches and schools convenient. The land is in a high state of cultivation, has always been manured with cropping, a large portion has been seeded down, and it admirably possesses all the requisites for a good sheep and stock farm.

The improvements consist of a good frame Dwelling House, with well and good water attached, frame Tenant House, a large Barn, 50X36, Ice House, Cattle Shed, &c. Also a young and thrifty Apple Orchard upon the premises, with abundance of Strawberries and Raspberries. Possession given at an early day, if desirable.

For further particulars apply to GEO. R. M'LANE, on the premises, or by mail to Pine Lake P. O., Waukesha Co., Wis., or to D. G. POWER,

Pure Unadulterated

BRANDIES.

DIRECT FROM THE GROWERS.

ONE OF THE PRINCIPAL AND GREAT CAUSES of the high price of brandy in this market, is the indirect source from which it is derived. Nine tenths of that imported is received from mercantile houses in Cognac, who buy of the farmers in that district and ship it to the United States, at much advanced prices, and frequently in an adulterated state. In view of those facts, and for the purpose of securing a fair price for their product, a union of brandy growers in France has been accomplished, with the view of shipment to the United States.

The name of the consolidation is the Central Society of Vineyard Proprietors of Cognac, under the "General management of M. Buddon, and the direction of a President, Vice President, and a Committee of Inspection of eight members. The society itself numbers five hundred vineyard proprietors, amongst them some of the most influential noblemen in the neighborhood of Cognac, who contribute, under certain by-laws, the entire growth of their vineyards to the general fund of the society, the present capital of which is three million francs. The advantages to be obtained from this combination are so apparent as to render unnecessary any further comment on the subject; nevertheless, it may be worthy of observation that few features in this society posses a more striking claim to public attention than the fusion of interest effected between buyer and seller. Since all are shareholders, it necessarily becomes the interest of each individual to contribute by every means in his power to uphold the reputation which the society is endeavoring to earn, for development of the best qualities of brandies. For this purpose a clause introduced in the statues (article 40) renders it imperative that shareholders shall supply the society with the very best Cognac brandies, otherwise they incur the liability of an entire forfeiture of their shares.

The undersigned, sole agents in the United States for the Central Society of Vineyard Proprietors of Cognac, would solicit the attention of merchants, hotel keepers, grocers and others to the vintages now on hand, confident that they will compare more than favorably with any article now in the market, and at prices far below the standard of even ordinary Cognacs.

THE GOOD SAMARITAN.

A little girl crossing Broadway, above the mound, a day or two ago, was knocked down and badly bruised by the reckless driving of a drunken brute, who immediately put whip to his horse and made off. Several persons ran to see if the child was hurt. Whilst some cursed the driver—some pitied the child, and others wondered who she was—an old countryman got down from his wagon, drew from his pocket a bottle of Mustang Liniment, bathed the wounds upon the child, and carried her in a state of insensibility, to a neighboring house, which proved to be her home. Yesterday he had the satisfaction to see her quite well. "Ah!" said the old man, "I never knew it to fail—I always carry a bottle in my pocket;" and so he does.

FOR SALE.
A VERY DESIRABLE LAKE FARM, EMbracing one of the most delightful country residences in Wisconsin, 25 miles from Milwaukee, on the Milwaukee & Watertown Railroad and Plank Road.

The subscriber offers at private sale, READLAND, the well known farm upon which he now resides, situated about two miles from the village of Hartland, Waukesha Co., and containing about 350 acres, 250 of which are under cultivation, well fenced, and divided into convenient fields.

This body of land is unsurpassed in richness and productiveness of soil, and for beauty of scenery and location, acknowledged to be one of the most desirable residences in the state. It is bounded upon the West, to a large extent, by Pine Lake, one of the largest and most beautiful of our inland Lakes, giving it superior advantages for water power and bathing, and the Lake abounds with fish and game in great variety.

Situated upon the Milwaukee & Watertown Rail and Plank Roads, and within a short walk of Pine Lake Station and Hartland Depot, it is easy of access and communication with Milwaukee, affording ready market for all kinds of produce, besides good stores and grist mills in the neighboring villages of Delafield, Hartland and Oconomowoc.

The Nashotah Theological Seminary is within 3 miles, and churches and schools convenient. The land is in a high state of cultivation, has always been manured with cropping, a large portion has been seeded down, and it admirably possesses all the requisites for a good sheep and stock farm.

The improvements consist of a good frame Dwelling House, with well and good water attached, frame Tenant House, a large Barn, 50X36, Ice House, Cattle Shed, &c. Also a young and thrifty Apple Orchard upon the premises, with abundance of Strawberries and Raspberries. Possession given at an early day, if desirable.

For further particulars apply to GEO. R. M'LANE, on the premises, or by mail to Pine Lake P. O., Waukesha Co., Wis., or to D. G. POWER,

Pure Unadulterated
BRANDIES.
DIRECT FROM THE GROWERS.

ONE OF THE PRINCIPAL AND GREAT CAUSES of the high price of brandy in this market, is the indirect source from which it is derived. Nine tenths of that imported is received from mercantile houses in Cognac, who buy of the farmers in that district and ship it to the United States, at much advanced prices, and frequently in an adulterated state. In view of these facts, and for the purpose of securing a fair price for their product, a union of brandy growers in France has been accomplished, with the view of shipment to the United States.

The name of the consolidation is the Central Society of Vineyard Proprietors of Cognac, under the "General management of M. Boudon, and the direction of a President, Vice President, and a Committee of Inspection of eight members. The society itself numbers five hundred vineyard proprietors, amongst them some of the most influential noblemen in the neighborhood of Cognac, who contribute, under certain by-laws, the entire growth of their vineyards to the general fund of the society, the present capital of which is three million francs. The advantages to be obtained from this combination are so apparent as to render unnecessary any further comment on the subject; nevertheless, it may be worthy of observation that few features in this society possess a more striking claim to public attention than the fusion of interest effected between buyer and seller. Since all are shareholders, it necessarily becomes the interest of each individual to contribute by every means in his power to uphold the reputation which the society is endeavoring to earn, for shipment of the best qualities of brandies. For this purpose a clause introduced in the statues (article 40) renders it imperative that shareholders shall supply the society with the very best Cognac brandies, otherwise they incur the liability of an entire forfeiture of their shares.

The undersigned, sole agents in the United States for the Central Society of Vineyard Proprietors of Cognac, would solicit the attention of merchants, hotel keepers, grocers and others to the vintages now on hand, confident that they will compare more than favorably with any article now in the market, and at prices far below the standard of even ordinary Cognac.

THE GOOD SAMARITAN.
A little girl crossing Broadway, above the mound, a day or two ago, was knocked down and badly bruised by the reckless driving of a drunken brute, who immediately put whip to his horse and made off. Several persons ran to see if the child was hurt. Whilst some cursed the driver—some pitied the child, and others wondered who she was—an old countryman got down from his wagon, drew from his pocket a bottle of Mustang Liniment, bathed the wounds upon the child, and carried her in a state of insensibility, to a neighboring house, which proved to be her home. Yesterday he had the satisfaction to see her quite well. "Ah!" said the old man, "I never knew it to fail—I always carry a bottle in my pocket;" and so he does.

The Senate passed to-day the Personal Liberty Bill, which nullifies the Fugitive Slave Act. The majority of the Governor's Council were adverse to his decision retaining Judge Loring in office. The Union praises the Governor as a firm and conservative democrat, siding with neither party in relation to the existing excitement in Kansas.

EVARTS' Patent Shingle Mill.

EVARTS & BUTLER,

PROPRIETORS AND MANUFACTURERS, CHICAGO ILLINOIS

THE SMOOTHNESS OF THE WORK WHICH GIVES this Mill its superiority, is produced by making the cut in the direction of the fibre of the wood

The ease with which wood is worked in that direction gives it speed of execution, and the flexibility of the shingle width wise relieves the saw, so that it may be ground thin on its edge, so as to cut away but little of the wood

The shingles now made with this mill sell in this market *seventy five cents per thousand higher* than any other sawed shingles

This mill is made entirely of iron—strong, simple and of the best workmanship easily worked, and not liable to get out of order

Lots in Sherman's Addition FOR SALE.

THE FOLLOWING LOTS IN SHERMAN'S ADDItion, for sale The titles to all these Lots are good. The difficulty concerning the title of said Lots has been removed by a decision of the United States Court, therefore there will be no more question about the title

Now for another fact —A more beautiful prospect can not be found than Sherman's Addition You have a full view of the City and Lake, for health it is not to be surpassed, the soil is rich, and I see no reason why property in Sherman's Addition should not command as good prices as in the First Ward, and it will if only a few individuals will commence and build fine houses I, for one, will sell my present premises, and would agree to build, in Sherman's Addition, Second Ward

The foregoing Lots are sold to close up the estate of our late friend HOLLIDAY

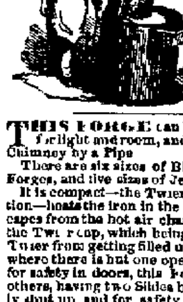
QUEEN'S PATENT PORTABLE FORGE AND BELLOWS!



THIS FORGE can be set where most convenient, for light and room, and the smoke conducted to the Chimney by a Pipe

There are six sizes of Blacksmiths, Coppersmiths, &c Forges, and five sizes of Jewelers Dentists and Chemists

It is compact—the Twier is of a superior construction—heats the iron in the quickest manner—the wind escapes from the hot air chamber through several holes in the Twier cap, which being under the fire, prevents the Twier from getting filled up with coal and ashes, as it will where there is but one opening For out-door work and for safety in doors, this Forge has great advantages over others, having two Slides by which the Forge can be closely shut up and for safety and many purposes in doors, (particularly for Jewelers, Dentists and for chemical operations,) all the fumes from charcoal and acids being conducted through the smoke pipe, or when open they are entirely out of the way It is also so constructed that fire or water cannot injure the Bellows, which is in the cylinder under the fire bed

It is the best Forge for Contractors on Railroads, Public Works (for making repairs on the same,) and for emigration to new countries, ever offered to the public, and are successfully used by most of the steamers, and also by the U S Army and Navy For sale by

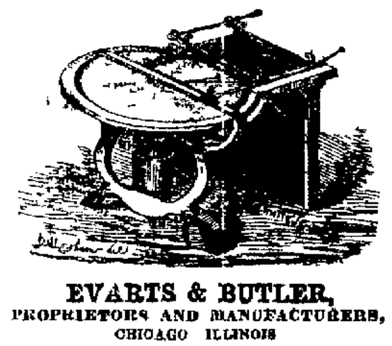
EVARTS' Patent Shingle Mill.



EVARTS & BUTLER,

PROPRIETORS AND MANUFACTURERS,
CHICAGO ILLINOIS

THE SMOOTHNESS OF THE WORK WHICH GIVES this Mill its superiority, is produced by making the cut in the direction of the fibre of the wood.

The ease with which wood is worked in that direction gives it speed of execution, and the flexibility of the shingle width wise relieves the saw, so that it may be ground thin on its edge, so as to cut away but little of the wood.

The shingles now made with this mill sell in this market seventy five cents per thousand higher than any other sawed shingles.

This mill is made entirely of iron—strong, simple and of the best workmanship, easily worked, and not liable to get out of order.

Lots in Sherman's Addition FOR SALE.

THE FOLLOWING LOTS IN SHERMAN'S ADDITION, for sale. The titles to all these Lots are good. The difficulty concerning the title of said Lots has been removed by a decision of the United States Court, therefore there will be no more question about the title.

Now for another fact.—A more beautiful prospect can not be found than Sherman's Addition. You have a full view of the City and Lake, for health it is not to be surpassed, the soil is rich, and I see no reason why property in Sherman's Addition should not command as good prices as in the First Ward, and it will if only a few individuals will commence and build fine houses. I, for one, will sell my present premises, and would agree to build in Sherman's Addition, Second Ward.

The foregoing Lots are sold to close up the estate of our late friend Holliday.

QUEEN'S PATENT PORTABLE FORGE AND BELLOWS!

THIS FORGE can be set where most convenient for light and room, and the smoke conducted to the Chimney by a Pipe.

There are six sizes of Blacksmiths, Coppersmiths, &c. Forges, and five sizes of Jewelers, Dentists and Chemists.

It is compact—the Tuyer Iron is of a superior construction—heats the iron in the quickest manner—the wind escapes from the hot air chamber through several holes in the Tuyer cap, which being under the fire, prevents the Tuyer from getting filled up with coal and ashes, as it will where there is but one opening. For out-door work and for safety in doors, this Forge has great advantages over others, having two Slides by which the Forge can be closely shut up and for safety and many purposes in doors, (particularly for Jewelers, Dentists and for chemical operations,) all the fumes from charcoal and acids being conducted through the smoke pipe, or when open they are entirely out of the way. It is also so constructed that fire or water cannot injure the Bellows, which is in the cylinder under the fire bed.

It is the best Forge for Contractors on Railroads, Public Works (for making repairs on the same,) and for emigration to new countries, ever offered to the public, and are successfully used by most of the steamers, and also by the U. S. Army and Navy. For sale by

RELIABLE EVIDENCE.

BLOOMFIELD, Mo., January 15, 1854

Messrs. A. G. BRAGG & Co.,

DEAR SIRS, Allow me to add my testimony to the excellent properties of your Mustang Liniment. In cases of burns or scalds. I had a son badly burned on his face and hands by powder. It was expected that he would be badly scarred for life. We applied the Mustang with raw cotton and nothing else, and in ten days it was entirely well and left no scar, or mark whatever. My wife used it in a case of scald from boiling hot tallow and it had the same good effect.

Yours, truly, D. B. MILLER, County Judge.

—o—

RUSSELL COUNTY, Ala., Feb. 1, 1853

For the benefit of the afflicted I feel it my duty to state publicly the remarkable cures that have been effected in my family by the use of the Mustang Liniment. A negress of mine had what is called a Bone Felon or Whitlow in her finger. The inflamation had been so extensive that the whole finger had become a mass of corruption, and the only hope of saving her hand and perhaps her life appeared to be to have it cut off. As her general health was very delicate, the Physician advised us to try the Mustang Liniment a few days, till she could be sent to a surgeon in Columbus, as it could do no harm and might prevent mortification. To the astonishment of the doctor and myself, the pain soon ceased, the inflamation subsided, and the wound rapidly healed. Her finger is perfectly well and sound. One of my boys was severely burned, the skin was entirely taken off from the knee to the ankle. The Mustang Liniment was freely applied, and nothing else was used. The relief and cure were almost beyond belief, but a short time elapsed before the wounds were perfectly healed. I consider it an invaluable remedy, and it should be in every family and on every plantation. JAMES PHILLIPS

NOTHING NEW—BUT EVER TRUE. It would be nothing new to say that the Mustang Liniment had been and was now more used in the United States than any other preparation. But it would be true to say that it has been more uniformly successful in healing wounds, bruises, burns, cuts and all manner of sores, as well as curing sprains, pains or lameness in the back, neck or limbs, than rheumatism any other remedy. These are facts that millions of persons know from having used it. We say millions, and base the assertion on the fact that over fifteen millions of bottles have been used and never heard a complaint against it, where it has been used as directed and used thoroughly. We deem it necessary occasionally to remind the people of these facts to induce those to try it who may never have had an occasion to use it. One trial is all we ask the most incredulous—and such a trial will only cost 25 cents.

PRICES.—It is put up in bottles of full sizes, and retailed at 25 cents, 50 cents and $1 per bottle. The fifty cent and one dollar bottles contain three times as much as the twenty five cent size in proportion to their cost. The large bottles are the cheapest.

HOLLOWAY'S OINTMENT

Citizens of the Union—

You have done me the honor, with one voice, from one end of the Union to the other, to stamp the character of my Ointment with your approbation. CURE OF SORE LEGS, AFTER 9 YEARS STANDING

Mr. W. J. Langley, of Huntsville, Yadkin, North Carolina, suffered for nine years with one of the most painful and troublesome sore legs that ever fell to the lot of man, and after trying every medicine he had ever heard of he resigned in despair all hope of being cured. A friend brought him a couple of Pots of Holloway's Ointment, which caused the sores on his legs to heal and he entirely regained his health, to the astonishment of his acquaintances and friends.

CURE OF A BAD BREAST, WHEN THE PATIENT WAS AT DEATH'S DOOR

Mr. R. DURANT, of New Orleans, addressed Professor HOLLOWAY as follows.—For 7 years my wife had a bad breast, with ten running wounds, (not of a cancerous nature,) I was told that nothing could save her. She was then induced to use your Ointment and Pills, when in the short space of three months, they effected a perfect cure, to the astonishment of all who knew us. We obtained your Medicines from Messrs. Wright & Co., of Chartres st., New Orleans. I send this from "Hotel des Princes, Paris," although I had written it at New Orleans, before we finally left, not knowing your address at New York.
Nov 9th, 1853 (Signed) R. DURANT
